

WHEN YOU ARRIVE AT SCO

A member from our team will review your paper work with you and you will then be escorted to our pre-operative waiting area at which time a nurse will get you ready for your procedure.

After your procedure

- Your recovery will be closely monitored by a nurse and anesthesiologist.
- You and your care companion will be given postoperative care instructions.
- Make sure you understand the instructions before being discharged.
- A responsible adult **MUST** drive you home, and stay with you for the first 24 hours.
- Rest & Relax.
- No consumption of alcohol or operation of any heavy machinery along with no strenuous activities until your doctor says you can return to normal routine.

Patient Safety and Quality Care

To do before your surgery:

- Surgery Date/Time
- Arrival Time
- Lab Work
- EKG
- X RAY/MRI
- Medical Clearance
- You shall receive a call from one of our RN
- To review your medical history & medications

We are pleased that you have elected to have your surgical procedure performed at our friendly relaxed atmosphere.

WE PROVIDE

- Compassionate nurses
- Talented surgeons
- Board certified anesthesiologists
- Individualize quality patient care
- We offer comfortable waiting room with refreshments and television for your visitors
- SCO is licensed by the State of New Jersey and accredited by the AAAHC.
- The Accreditation certificate is a symbol that an organization is committed to providing high quality health care and that it has demonstrated that commitment by measuring up to the accreditation high standards.

WELCOME TO OUR CENTER

We are a licensed multi specialty free standing facility located in the heart of Bergen County; the perfect location for our New Jersey and New York physicians.

We are here to ensure our providers and their patients are cared for in a safe, professional and comfortable manner that not only meets but exceeds their expectations.

GOALS OF THE ASC

- Technology - Pursue and offer the best and most current state-of-the-art technology for Surgery and Center operations
- Communication - Become better listeners and communicators to assure our values are achieved.
- Focus on the patient, assist them in understanding the services we provide, and get them back to their normal lifestyle as fast as possible.
- Treat employees as part of a team and listen to their comments and concerns.
- Provide staff with the high quality tools they need to do their jobs and provide them with on-going continuing education to keep their skills current.
- Make everyone (patients, staff, vendors) part of the Quality Improvement process.
